

Valley View Village Update

April 7, 2020

Stay At Home Order

Given the Stay At Home order for the state of Pennsylvania, we would expect there to be no visitation to Valley View campus. We thank you for respecting and adhering to this guidance as it is imperative we all do our part to curtail the possible future presence of COVID-19 on our campus and the spread in the greater community. We continue to have no confirmed cases at Valley View and will certainly share information should such a situation occur.

Masks

Please wear the offered and provided mask when you need to be in situations (grocery shopping/doctor appointment/collecting mail at Oakwood Centre) where social distancing is not possible. We have received additional guidance from Centers for Disease Control (CDC) that all residents should be masking, not just team members. Residents in Terrace and Haven will be provided with masks as well.

Locking of Vehicles/Homes

It was reported by another resident that they witnessed someone on campus looking in cars. We have increased the driving rounds of the evening/night maintenance team member through the campus as well as have contacted the local police department to make them aware. We have requested drives through the campus, if and when possible. Please be sure to keep all vehicles and doors to your home locked.

New Construction Project

We have requested a waiver with the state regarding the cottage project. We are waiting to hear a response that the project may continue and plan to resume operations once it is granted.

Phone Call Away

If you find yourself in need of anything, please do not hesitate to call, as we want you to know we are here to support you as well. (717)935-2105.

Stay Well!

Nicole Sarver, CEO
