

Valley View Retirement Community Update

April 8, 2020

We are so grateful for the ongoing efforts of each of you and the commitment you have to keeping yourself and those you serve healthy. These efforts have resulted in our ongoing ability to have no known cases on campus. In efforts for transparency, we wanted to share we did have one test that was sent out today for a resident in Nursing. As we await the results, we find comfort in knowing that this resident has been on droplet precautions from the moment they came in the door and you have been wearing all appropriate PPE while delivering care. We are appreciative of Dr. Koberna's desire to be overly cautious while also proactive in ruling out COVID-19 as a possible diagnosis for this resident. As we obtain results, we will be sure to provide additional information.

Find reassurance in knowing you and others are doing all appropriate measures as outlined and directed by Department of Health, CMS, and the CDC. If you have questions or concerns, please contact Nan Yeater, NHA (ext. 2230) or Emily Wilson, DON (ext. 3270).

With much gratitude,

A handwritten signature in black ink that reads "Nicole M. Sarver". The signature is written in a cursive style.
