

Haven Family Communication  
February 10, 2021

We wanted to share with you an important update specific to our ongoing surveillance COVID-19 testing measures. Each week (every Monday and Thursday), all applicable residents and team members are tested for COVID-19. Test results this week confirmed that a team member and a resident have tested positive. At this time, both are without symptoms and we are prayerful that this holds true in the days to follow.

These findings require us to have three nursing neighborhoods placed on isolation protocols due to possible exposure. The impacted areas are for residents residing within the 200, 300, and 400 neighborhoods. This is a precautionary measure and does not affect the 500 or 600 neighborhoods. This also does not impact the Terrace.

As many of you will recall, this is a consistent practice and measure to what we have been doing since the fall of 2020. Visitation will remain as it has been for scheduled virtual visits or compassionate care visits.

If you have questions, please do not hesitate to call us at (717) 935-2105.

Nan Yeater, NHA
