

November 6, 2020

Dear Haven Family and Friends,

Since our last update on Wednesday, November 4, four additional residents have tested positive for COVID-19 within nursing care, the Haven.

The residents remain on our campus and have been assessed by their physician.

One additional team member has tested positive for COVID-19.

All impacted residents, families, and team members have been made aware. We have also been in communication with the Pennsylvania Department of Health and we are following all provided direction.

Our efforts remain internally focused, and we will keep you informed of any additional updates.

Thank you,

Nicole Sarver, CEO

Nan Yeater, Administrator
