

## **Haven Family Communication**

**March 17, 2020**

Through ongoing COVID-19 surveillance testing, we have learned that a team member has tested positive for COVID-19. Due to a previous positive case and the addition of this new one, we will need to temporarily pause in-person visits. We recognize this is not news you wish to receive nor news we wish to deliver. The earliest in-person visitation could resume next week would be Wednesday and requires ALL additional testing to be negative. In the meantime, we will continue with compassionate care visits, virtual visits, and visits in the Hope Hut (visitation shed). Please dial (717) 935-2105 ext. 2080 to schedule a virtual visit or ext. 2850 to schedule a Hope Hut visit. When in-person visitation is able to resume, we will notify you as to who you are to call to schedule a visit. It is also important to note that this does not affect Terrace visitation.

Sincerely,

A handwritten signature in cursive script that reads "Nan Yeater".
