

Terrace Family Communication: November 2, 2020

Dear Terrace Family Member,

Today, November 2, we were notified of three residents testing positive for COVID-19 within Nursing Care, the Haven. These residents remain on our campus and have been assessed by their physician. Three additional Haven team members tested positive over the weekend as well. These staff persons are self-isolating at home and will continue to do so until cleared to return to Valley View. We currently have no positive cases among Terrace residents and team members at this time. Due to the increased prevalence of COVID-19 in Mifflin County, we will be completing testing of residents who have had any outside contact as well as all Terrace team members. In-person visits for Tuesday November 3 have been cancelled. We are continuing to evaluate the ability to continue with ongoing in-person visits in the Terrace this week and on an ongoing basis. We will share more information as it is available. Our team is continuing to work vigilantly to do our part as the safety of residents, their family members, our team members, and the Valley View Retirement Community remains our goal.

Thank you,

Geli Losch
Senior Director of Resident Services
